Advancing Global Health & Health Care
Dear Friends,

Welcome to Chicago and the International Hospital Federation 39th World Hospital Congress, a unique gathering of visionary healthcare leaders from around the globe. These three days will be filled with ideas and solutions for tackling healthcare's greatest challenges.

World-renowned healthcare leaders and the best and brightest from IHF’s member countries will discuss advances in the delivery of healthcare in their countries. Both practitioners and academics will present free papers on topics that address the main Congress themes. And numerous innovations will be highlighted in the educational poster sessions submitted from around the world.

The IHF World Hospital Congress is always a special event. The most important innovations in healthcare emerge when global leaders can gather to hear from one another, exchange ideas and discuss solutions.

We are so glad you have joined us.

Dear Friends:

As Mayor, and on behalf of the City of Chicago, I am pleased to welcome all of those gathered for the International Hospital Federation 39th World Hospital Congress.

Founded in 1947, the International Hospital Federation has worked to fortify hospitals and enlighten administrative staff since its inception. For generations, IHF has represented a global voice comprised of hospitals and healthcare organizations alike from all over the world. By providing a home for the open exchange of information and ideas, the International Hospital Federation has given the healthcare community the ability to improve and enhance services hospitals provide to their diverse communities.

This year, the congress will provide healthcare executives from all over the world an opportunity to join together and find solutions to some of healthcare’s most difficult challenges. It is through sharing ideas that the healthcare community is able to tackle issues such as improving healthcare access, engaging both patients and practitioners, treating cancer, and revolutionizing maternal health. As these are just a few of the wide range of topics that will be covered, I am confident that the dedicated healthcare industry and organization leaders in attendance will continue shaping change across the medical and healthcare services landscape. I applaud the International Hospital Federation for the excellent assistance it continues to provide and thank you for your efforts to improve healthcare on an international scale.

I hope that those visiting our great city take time to experience some of the special places in Chicago. Our iconic skyline and incredible lakefront invite you to explore all Chicago has to offer. I hope you have a chance to sample our distinguished restaurants, tour our great universities, and visit our world-class museums during your stay.

On behalf of the people of Chicago, please accept my congratulations on this special occasion and best wishes for much continued success.

Sincerely,

Mayor
Key Information

Name Badges
You will be issued a name badge when you register for the Congress. Please be aware that you must wear your badge at all times, and please bring it to the reception, hospital visits and Gala Dinner.

Breakfast
A light breakfast will be served to all Congress registrants Tuesday through Thursday in the Exhibit Hall. A full breakfast is also available for an additional cost in American Craft Kitchen & Bar.

Lunch and Coffee Breaks
Lunch and coffee breaks will be served in the Exhibit Hall on Tuesday and Wednesday.

Wi-Fi
Complimentary Wi-Fi is available in guestrooms and meeting rooms.
Login: Hyatt Conference Access Code: IHFCHICAGO

Registration Hours
Monday 2 p.m.–7 p.m., Tuesday 7 a.m.–7 p.m., Wednesday 7:30 a.m.–7:30 p.m. and Thursday 8 a.m.–1 p.m.

Coat Check
Coats may be checked with the bell desk (Blue Level, East Tower).

ATM/Currency Exchange
There are two Automatic Teller Machines (ATMs) located in the Hyatt Regency Chicago: on the Green Level of the East Tower under the staircase (by BIG Bar) and on the Green Level of the West Tower near the elevators.

The Hyatt Regency Chicago front desk can accept the following currencies in exchange for U.S. dollars: AUD, CAD, CHF, DKK, EUR, GBP, HKD, JPY, NOK, NZD, SEK and SGD. The closest currency exchange outside the hotel is located at 100 W. Randolph St.

Tipping
In Chicago, tipping of 15–20 percent for restaurant meals, taxis and other services is standard.

Fitness Center
A complimentary fitness center (Blue Level, West Tower) is available 24 hours by using your hotel guestroom key.

Lost and Found
Call the Lost and Found Department at (312) 565-1234 or dial x4646 from any house phone from 8 a.m.–3 p.m., Monday through Friday.

Medical Emergencies
The nearest full-service hospital is Northwestern Memorial Hospital, located at 251 E. Huron St. The phone number is (312) 926-2000. If you require medical care anywhere in the hotel, please dial 55 from any house phone.

Speaker Ready Room
Speakers may prepare for their presentations in Grand Suite 4, Gold Level, East Tower.

Paperless Meeting
This meeting will be paperless. All handouts are available for download through the App.
The International Hospital Federation (IHF) is the global association of health care organizations, which includes in particular, but not exclusively, hospital associations and representative bodies as well as their members and other health care related organizations.

As the worldwide body for hospitals and health care organizations, the IHF develops and maintains a spirit of cooperation and communication among them, with the primary goal of improving the health of society. More specifically, the role of the IHF is to help international hospitals work towards improving the level of the services they deliver to the population regardless of that population's ability to pay. The IHF recognizes the essential role of hospitals and health care organizations in providing health care, supporting health services and offering education.

The American Hospital Association (AHA) works with its members, state, regional, and metropolitan hospital associations and other organizations to shape and influence federal legislation and regulation to improve the ability of its members to deliver quality health care.

AHA affiliates are uniquely positioned to respond to a broad array of local and national issues by providing hospitals with assistance in buying decisions, ideas and information, education, and consulting services. AHA actively participates in partnerships and initiatives addressing crucial areas of concern to the American health care system.

The American College of Healthcare Executives (ACHE) is an international professional society of 40,000 healthcare executives who lead hospitals, healthcare systems and other healthcare organizations. ACHE's mission is to advance our members and healthcare management excellence. ACHE offers its prestigious FACHE® credential, signifying board certification in healthcare management. ACHE's established network of 80 chapters provides access to networking, education and career development at the local level. In addition, ACHE is known for its magazine, Healthcare Executive, and its career development and public policy programs. Through such efforts, ACHE works toward its vision of being the preeminent professional society for healthcare executives dedicated to improving health. The Foundation of the American College of Healthcare Executives was established to further advance healthcare management excellence through education and research. The Foundation of ACHE is known for its educational programs—including the annual Congress on Healthcare Leadership, which draws more than 4,000 participants—and groundbreaking research. Its publishing division, Health Administration Press, is one of the largest publishers of books and journals on health services management including textbooks for college and university courses.

**Pre-Congress Symposium**

**The Global Group for Health Partnerships**

*Engaging Professionals: Why Institutional Health Partnerships Work*

**Monday, Oct. 5, 1 p.m.–5 p.m.**

**Columbus Hall G, Gold Level**

The critical shortage of appropriately trained health workers in low- and middle-income countries undermines efforts to improve the availability of quality health services to the poorest and most disadvantaged people in the world. Where is the logic in improving access to healthcare if people continue to encounter poorly trained staff and unsafe practices?

The Global Group for Health Partnerships presents this half-day symposium to showcase the effectiveness of institutional health partnerships—long-term relationships where equity and mutual benefit lead to powerful and effective outcomes in improving the quality of healthcare where it is most needed.

This symposium will draw on the experience of implementers from around the world and will explore the history and development context of health partnerships; their value at home and abroad; why they are able to achieve results that other development interventions find difficult; how to go about setting up a health partnership; what makes an effective health partnership; the challenges that health partnerships encounter; and why health partnerships should be in every development professional’s toolkit.

Universal access to health and universal health coverage are necessary in order to improve health outcomes and other basic objectives of health systems, and they are based on the right of every person to the enjoyment of the highest attainable standard of health, equity and solidarity. Without universal, timely and effective access, universal coverage is an unattainable goal: both are necessary conditions for achieving health and wellbeing. PAHO’s Strategy for Universal Access to Health and Universal Health Coverage seeks, among other strategic objectives, to expand equitable access to comprehensive, quality, people- and community-centered health services. The pathway to achieving this objective requires transforming healthcare delivery through increasing the capacity of the first level of care while redefining the role of hospitals, both in the context of integrated healthcare delivery service networks. This redefinition of the role of hospitals is a very challenging endeavor; however, countries of the Americas have made significant progress.

IHF/Dr Kwang Tae Kim Grand Award

IHF Excellence Awards in: Leadership and Management in Healthcare; Quality and Safety and Patient Centered Care; and Corporate and Social Responsibility

The challenges in front of us are immense. The burdens of chronic disease, aging populations and modern living are growing exponentially. Getting to the IHI Triple Aim (better care, better health and lower costs) requires a robust global learning system that leverages new models of care, new health-promoting partnerships and new innovations, no matter where they originate. Only by creating true two-way learning pathways, hearing the voice of the patient and looking at old problems with new lenses will we be able to improve our care systems and improve the health of our communities.

Learning Objectives:
• Describe new ways to improve health and healthcare systems.
• Design a system for promoting professional development and innovation from both inside and outside healthcare.
• Learn about new models of care that improve clinical outcomes and build stronger patient and family engagement.
Concurrent Sessions 1:30 p.m.–3 p.m.

</table>
| Results and Lessons from Large-Scale Improvement in Quality and Safety | Columbus Hall (K/L), Gold Level | Deneen Richmond, MHA, RN. Vice President, Performance Improvement and Outcomes, Inova Health System, Virginia  
Rishi Sikka, MD. Senior Vice President, Clinical Transformation, Advocate Health Care, Chicago  
Maulik Joshi, Dr.P.H., Associate Executive Vice President, American Hospital Association  
Moderator: Richard J. Umbdenstock, FACHE. Past President and CEO, American Hospital Association |
| Learning Objectives: |  
- Discuss findings from a three-year large-scale national engagement project to improve quality, safety and efficiency based on 11 performance measures with 3,000 participating hospitals.  
- Discover lessons learned from two leading health systems on how to implement best practices across multiple facilities and physician practices.  
- Learn effective strategies to implement continuous quality improvement and instill a culture to maintain high quality of care. |
| Philippine Hospitals: Scenarios in Pursuit of Universal Healthcare for All | Columbus Hall (C/D), Gold Level | Ruben Flores, MD. President, Philippine Hospital Association  
Bu Castro, MD. Director, Chairman, Committee on Ethics, Hospital Practice and Legal Concerns, Philippine Hospital Association  
Maria-Lourdes Otaiza, MD. Medical Center Chief II, Mariano Marcos Memorial Hospital and Medical Center  
Moderator: Jesus Jardin, MD, Philippine Hospital Association |
| Learning Objectives: |  
- Explain how a Philippine hospital improved access to maternal and child healthcare.  
- Analyze how the Philippine Universal Healthcare program overcame financial and resource challenges.  
- Describe the ethical issues confronting the Philippine universal healthcare system. |
| University Hospitals and End-of-Life Care: Combining Humanity and Efficiency | Columbus Hall (E/F), Gold Level | Kathleen L. Vermoch. Project Manager and Patient Experience Leader, UHC, Chicago  
Risto Miettunen, MD, PhD. Chief Executive, Kuopio University Hospital District, Finland  
Drew A. Rosielle, MD, FAAHPM. Palliative Care, University of Minnesota Medical Center, Fairview, Minnesota  
Moderator: Barbara Anason. Senior Vice President, AMC Networks and Strategy |
| Learning Objectives: |  
- Learn global perspectives about innovative programs and trends of end-of-life care.  
- Review key findings from research conducted by IHF’s special interest group on end-of-life care issues in university hospitals.  
- Discuss comparative survey results gathered from cancer centers from the United States and France. |
| Innovation: In Pursuit of Excellence in the Health Valley | Columbus Hall (G/H), Gold Level | Thomas Vogel. Health Economist  
Karl Heinz Krause. University of Geneva  
Nicole Rosset, PhD. Deputy, External Affairs, Executive Management Member (HUG)  
Moderator: Karine Martinez. External Affairs Deputy (HUG) |
| Learning Objectives: |  
- Describe the Health Valley and Innovation project.  
- Discuss strategies to implement a new plan that embraced and fostered innovation.  
- Provide examples of how the use of technology improved global access to health services. |
### Concurrent Sessions 1:30 p.m.–3 p.m. (continued)

**Challenges for South African Hospitals Before NHI With Respect to Innovation and Quality**

**SOUTH AFRICA—NATIONAL DEPARTMENT OF HEALTH**

Columbus Hall (I/J), Gold Level

Moderator: Dr. Neale Fong

Gladys Bogosh, CEO, Charlotte Maxeke Johannesburg Academic Health Prof. Karen Hofman, MD, FAAP, Director, Wits School of Public Health Dr. Sifiso Mtshali, Head of Health for KwaZulu Natal Province Dr. Bhavna Patel, CEO, Groote Schuur Hospital

**Learning Objectives:**
- Identify proven ways to improve access to care in the South African health system.
- Discover how the use of technology can influence the clinical decision-making process.
- Learn strategies to optimize patient care by using clinical and organizational metrics.
- Examine multifaceted approaches to reduce patient infections and increase compliance with standards of care.

**Healthcare Management: An HR Focus**

**FREE PAPER PRESENTATIONS**

Columbus Hall (A/B), Gold Level

Moderator: Dr. Neale Fong

- Achieving Exceptional Outcomes through Excellence in Staffing: A Statewide Initiative to Leverage Best Evidence, Joan Ellis Beglinger, MSN, RN, MBA, FACHE, FAAN (USA)
- Interprofessional Relationship of Medicine and Management is the Foundation of Success of Global Healthcare Systems, Atiefeh Samadi-niya, MD, DHA, PhD, CCRP (Canada)
- Participation of Professionals in the Strategic Day: A Case Study, Laia Terradellas Antoñanzas (Spain)
- Inpatient Satisfaction Survey through QR-Coded Scanning by Smart Phones, Tsair-wei Chien (Taiwan)
- The Retention Strategy for Nursing Cadre in Rashid Hospital, Fatima Al Noman (United Arab Emirates)

**Learning Objectives:**
- Engage with healthcare leaders from around the world on a variety of healthcare challenges.
- Learn from case studies about specific healthcare management and health services research initiatives.
- Obtain perspectives about effective strategies and challenges that healthcare organizations face.

- **Impact of Population Differences in the Area of Preventable Hospitalizations**, Jean Dowling Dols PhD, RN, NEA-BC, FACHE (USA)  
- **Public Hospital Transformation in a Resource Constrained Environment: A Case of Kenyatta National Hospital, Kenya**, Lilly Koros Tare (Kenya)  
- **The World’s Best Stroke Service is in Helsinki**, Maaret Castren (Finland)

**Moderator:** Prof. Paul Dugdale, MD

**Learning Objectives:**  
- Engage with healthcare leaders from around the world on a variety of healthcare challenges.  
- Learn from case studies about specific healthcare management and health services research initiatives.  
- Obtain perspectives about effective strategies and challenges that healthcare organizations face.
Tuesday Evening

Evening Reception 6:30 p.m.–7:30 p.m.

Chicago Cultural Center

78 E. Washington St.
Chicago, IL

Walking Directions:
The Chicago Cultural Center is located on the northwest corner of Michigan Avenue and Washington Street—a short walk from the Hyatt Regency Chicago.

Join us for a spectacular reception hosted at the Chicago Cultural Center. This venue, one of the most visited attractions in Chicago, was designed as the first home of the Chicago Public Library. Construction on the Chicago Cultural Center was completed in 1897, and the center was designated a Chicago Landmark by the City Council on Nov. 15, 1976. The Beaux Arts style was influenced by the buildings of the 1893 World’s Columbian Exposition. The building’s interior features rooms modeled on the Doge’s Palace in Venice, the Palazzo Vecchio in Florence and the Acropolis in Athens. Its lush ornamentation includes two stained-glass domes, rare marbles inlaid with sparkling mosaics and intricate, coffered ceilings.

One ticket to the Evening Reception is included with each paid registration. Additional tickets may be purchased at the Congress Registration area.

> Go west on E. Wacker Dr. toward N. Michigan Ave.
> Turn left onto N. Michigan Ave.
> Turn right onto E. Washington St.
The Chicago Cultural Center is on the right.

Up-to-date information is available on the 2015 IHF Chicago App. Access the app at [ddut.ch/ihf](http://ddut.ch/ihf)

Kaiser Permanente

**Delivering Health in the 21st Century**

**Moderator: Tsuneo Sakai, MD**

Advances in technology and innovation are driving new possibilities in health and healthcare. Bernard J. Tyson, chairman and CEO of Kaiser Permanente, will discuss how an integrated, 21st century approach to health can make care more affordable and more accessible while delivering greater value to consumers, employers and governments.

**Learning Objectives:**
- Discuss how a 21st century integrated approach to healthcare—and health—can deliver greater value for individuals and populations.
- Understand Kaiser Permanente’s integrated and technologically advanced healthcare model and how it can be applied more broadly.
- Explore ways to drive transformational change that will support quality improvement, integrate care and improve outcomes.

---

### Coffee Break 9:30 a.m.–10 a.m.

**Exhibit Hall, Riverside Center, Purple Level**

### Concurrent Sessions 10 a.m.–11:30 a.m.

#### Healthcare Leadership and Management Challenges: A Canadian Perspective

**HEALTHCARE CAN AND ONTARIO HOSPITAL ASSOCIATION**

**Columbus Hall (K/L), Gold Level**

- Ray Racette, President and CEO, Canadian College of Health Leaders
- Dale Schierbeck, Vice President, Learning and Development, HealthcareCAN
- Moderator: Bill Tholl, President and CEO, HealthcareCAN

**Learning Objectives:**
- Identify key policy challenges that face Canadian healthcare executives.
- Describe the LEADS-based leadership capacity and management development program.
- Understand how the leadership capabilities framework is being implemented to confront challenges facing Canadian healthcare leaders and organizations.

#### French Hospitals: Strategies to Address Chronic Disease

**FRENCH HOSPITAL FEDERATION & UNICANCER**

**Columbus Hall (C/D), Gold Level**

- Patrice Viens, General Manager, Paoli-Calmettes Cancer Institute
- Pascal Piedbois, General Manager, Paul Strauss Cancer Center
- Vincent Meininger, Assistance Publique Hôpitaux de Paris
- Dominique Somme, University Hospital Rennes
- Moderator: Gerard Vincent, CEO, French Hospital Federation

**Learning Objectives:**
- Learn about effective hospital strategies that promote coordination of care for chronic disease.
- Identify specific healthcare initiatives that target the frail, the elderly and patients with chronic disease.

#### Ensuring Hospitals Remain Functional in Emergencies and Crisis

**PAN AMERICAN HEALTH ORGANIZATION**

**Columbus Hall (E/F), Gold Level**

- Dr. Felipe Cruz, Chief, Special Projects, Mexican Social Security Institute
- Eng. Tony Gibbs, Structural Engineer, Barbados
- Dr. Luis Fernando Correa, Director, Emergencies and Disasters Ministry of Health, Colombia
- Moderator: Dr. Ciro Ugarte, Director, Emergency Preparedness and Disaster Relief, Pan American Health Organization/World Health Organization (PAHO/WHO)

**Learning Objectives:**
- Understand the importance of having an organizational plan during a crisis.
- Gain proven strategies hospitals should undertake as a result of a natural disaster.
- Learn four global initiatives that hospitals must be aware of during disaster recovery.
Healthcare Leadership in Brazilian Private Hospitals: How Are We Doing?

BRAZILIAN NATIONAL ASSOCIATION OF PRIVATE HOSPITALS
Columbus Hall (G/H), Gold Level

Fernando Torelly, CEO, Hospital Moinhos de Vento (RS), Brazil
Hildia Lima, Quality Manager, Rede D’Or São Luiz
Miguel Andoioglo, Albert Einstein Jewish Hospital

Moderator: Carlos Figueiredo, CEO, National Association of Private Hospitals—ANAPH, Brazil

Learning Objectives:
• Discuss similarities and differences of healthcare management practices in Brazil compared with best practices worldwide.
• Examine challenges that healthcare leaders face including cultural barriers and financial issues.
• Obtain personal insight from three healthcare management leaders about opportunities and challenges that they face within their organizations.

Taking Better Care of Complex Patients: Findings from UHC’s Frequently Admitted Patients Improvement Collaborative

UNIVERSITY HEALTHSYSTEM CONSORTIUM
Columbus Hall (I/J), Gold Level

Ed Fink, Clinical Project Manager, UC Davis Medical Center
Jennifer Houlihan, Director of Clinically Integrated Network Strategy, Integration and Population Health, Wake Forest Baptist Health
Diane Nanno, Director of Nursing/Transition Services, Upstate University Hospital

Moderator: Danielle Carrier, Project Manager, Quality Operations, UHC

Learning Objectives:
• Discuss the UHC’s Frequently Admitted Patients Improvement Collaborative research project. Examine six specific strategies that have been implemented to improve patient interaction, and reduce hospitalizations and emergency department visits.
• Learn from three organizations participating in the research about lessons learned, preliminary results and next steps.

Healthcare Management: Performance and Training
FREE PAPER PRESENTATIONS
Columbus Hall (A/B), Gold Level

Moderator Dr. CC Lau

› Developing Strategic Initiatives to Advance Global Healthcare Management Education, Daniel J. West Jr., PhD, FACHE (USA)
› Improving Primary Care and Public Health Integration: Evaluation Using the Public Health Information Technology Maturity Index, P. Kenyon Crowley, MBA, CPAM, CPHIMS (USA)
› Lessons in Leadership: How Clinicians Can Build Their Skills for Leadership and Management, Ken Hekman, MBA, FACMP (USA)
› Values-Based Leadership in a Healthcare Organization: Its Impact on Decision Making and Organizational Outcomes, Premalatha Mony (USA)
› Patient Satisfaction Scores Improve With Nurse Leader Rounding, Alison S. Tophy, MD (USA)

Learning Objectives:
• Engage with healthcare leaders from around the world on a variety of healthcare challenges.
• Learn from case studies about specific healthcare management and health services research initiatives.
• Obtain perspectives about effective strategies and challenges that healthcare organizations face.

Special Session 11:45 a.m.–12:15 p.m.  Columbus Hall (A/B), Gold Level
Warning From a Mass Grave: Hospitals Under Attack

Emily Friedman, Independent writer, speaker and health policy and ethics analyst

Armed attacks on hospitals are occurring more often around the world, resulting in death, injury and destroyed facilities. What can be done to stop this disturbing trend?

Lunch 11:30 a.m.–1 p.m.  Exhibit Hall, Riverside Center, Purple Level

Up-to-date information is available on the 2015 IHF Chicago App. Access the app at ddut.ch/ihf.
Wednesday Afternoon

Major Presentation 1 p.m.–2 p.m.  Grand Ballroom (C–F), Gold Level

Models for Transforming Healthcare: Ways to Involve Patients, Health Plans, Employees and Suppliers

Moderator: Erik Normann, MD

Every stakeholder in the healthcare system has its role to play in transforming the healthcare system to become more "intelligent." How are patients, health plans, employees, suppliers and technologies accelerating this transformation?

Learning Objectives:
- Determine the roles of various stakeholders in transforming healthcare.
- Review ways to reduce costs and create efficiencies in healthcare.
- Investigate models to design high quality low cost healthcare systems.

Concurrent Sessions 2:15 p.m.–3:45 p.m.

Ethical Challenges Facing Belgian Hospital Directors and Approaches to Healthcare Reform

BELGIAN HOSPITAL ASSOCIATION

Columbus Hall (C/D), Gold Level

Prof. Guy Durant, Former General Manager, University Hospital Saint-Luc
Prof. Marc Noppen, CEO, University Hospital Brussels
Francis de Drée, General Manager, University Hospital Brugmann
Jan Deleu, General Manager, AZ Groeninge

Moderator: Jan Beeckmans, General Manager, University Hospital Brussels

Learning Objectives:
- Describe three ethical issues and challenges that confront hospitals in Brussels.
- Explain the theoretical and practical approaches that University Hospital Brussels developed for end-of-life care.
- Discuss the way public hospitals of Brussels (IRIS Group) partner with local social networks.
- Explain the ethical challenges Belgian hospital directors are dealing with facing an important reform of the hospital financing system.

Norwegian Healthcare: Moving Toward a Bright and Innovative Future

NORWEGIAN HOSPITAL AND HEALTH SERVICE ASSOCIATION

Columbus Hall (K/L), Gold Level

Rolf Johannes Windspoll, Director, Department of Community Health Care Services, Norwegian Directorate of Health
Tone Marie Nyboe Solheim, Director, Department of Health and Welfare, The Norwegian Association of Local and Regional Authorities
Prof. Kari Kvaerner, PhD, MD. Director of Innovation and the Clinic of Innovation, Oslo University Hospital

Moderator: Dr. Erik Normann, CEO, Curato AS and IHF President Designate

Learning Objectives:
- Recognize the various challenges Norway faces in the management of new diseases and delivery of preventative healthcare services.
- Describe strategies for the provision of coordinated and holistic medical care.
- Identify ways to provide effective healthcare services locally and the key drivers to innovate in the healthcare system.
<table>

<tr>
<th>Concurrent Sessions 2:15 p.m.–3:45 p.m. (continued)</th>
</tr>
</thead>
</table>
| Contemporary Leadership Issues for High-Performance, Universal-Coverage Health Systems | Dr. Deborah Cole, Chief Executive, Dental Health Services, Victoria  
Bernie Harrison, Peloton: Healthcare Improvement Consulting  
Sandy Thomson, GovernancePlus  
Moderator: Prof. Paul Dugdale, MD, Chair of the Board, Australian Healthcare and Hospitals Association |

**AUSTRALIAN HEALTHCARE AND HOSPITALS ASSOCIATION**  
Columbus Hall (E/F), Gold Level  

**Learning Objectives:**  
- Identify important leadership principles to successfully deliver universal, affordable, accessible and equitable high-quality healthcare.  
- Explore ways to drive transformational change that will support quality improvement initiatives, integrate care and improve outcomes.  
- Learn about the role of the Australian accreditation program and the importance of including public dental health services under universal health coverage.

| Globalization and Healthcare: Travel, Talent and Trends | Prof. Andrew N. Garman, PsyD, MS, Rush University  
Charles E. Bogosta, President, UPMC International Division, and President, UPMC Cancer Center  
Moderator: Paula Wilson, President and CEO, Joint Commission International |

**JOINT COMMISSION INTERNATIONAL**  
Columbus Hall (G/H), Gold Level  

**Learning Objectives:**  
- Discuss current trends in the provision of medical care for travelers.  
- Examine the provider perspective of treating and caring for medical travelers.  
- Identify how technology and the market of medical travel influence global competition in healthcare.

| Hospitals and Big Data: Playing Field, Initiator or Stakeholder? | Marcus Dawe, CEO, Health Horizon  
Dr. Shinya Matsuda, Professor, Department of Preventive Medicine and Community Health, University of Occupational and Environmental Health (Japan)  
Dr. Chakib Sari, Manager, Development/Promotion, Clinical Research Unit, Montpellier Regional Cancer Institute (France)  
Dr. Raymond Gensinger Jr., MD, CPHIMSS, FHISS, Chief Information Officer, Hospital Sisters Health System (USA)  
Moderator: Patrice Viens, General Manager, Paoli-Calmettes Cancer Institute |

**IHF SPECIAL SESSION**  
Columbus Hall (I/J), Gold Level  

**Learning Objectives:**  
- Learn ways to incorporate technology solutions to improve patient care.  
- Assess methods to use technology to improve hospital performance.  
- Explore how healthcare organizations in Europe, the United States and Asia are using technology to advance healthcare research and outcomes.

| Healthcare Delivery Challenges | Advancing Health: A New Jersey Statewide Initiative Uses Gainsharing to Align Physicians and Hospitals to Lower Costs and Improve Quality, Anthony C. Stanowski, DHA, FACHE (USA)  
Care Delivery System: Population Health, Margaret J. Holm, RN, PhD, FACHE (USA)  
How Antimicrobial Stewardship Programs are Changing the Game Against Resistant Hospital Flora, John Trowbridge (USA)  
Sustainability Roadmap and Its Implications for the World, Walt Vernon (USA)  
The Future of Medical Tourism: Lessons Learned from Global Research—Linking Innovative Delivery to Best Practices in Meeting, Michael A. Petrochuk, MHA, DBA, FACHE (USA) |

**FREE PAPER PRESENTATIONS**  
Columbus Hall (A/B), Gold Level  

Moderator: Dr. Terence Carter  

**Learning Objectives:**  
- Engage with healthcare leaders from around the world on a variety of healthcare challenges.  
- Learn from case studies about specific healthcare management and health services research initiatives.  
- Obtain perspectives about effective strategies and challenges that healthcare organizations face.

#### Building a Solid Primary Care Continuum for the Health System

**INTERNATIONAL FEDERATION OF COMMUNITY HEALTH CENTERS**

**Columbus Hall (C/D), Gold Level**

- **Bill Davidson,** Executive Director, Centre Langs Community, Health, Wellness, CACHC
- **Heidi Park Emerson,** Health Services Researcher, Public Policy Division, NACHC
- **Marc Bruijnzeels,** Director, Jan van Es Institute, Almere, The Netherlands, and member of the Alliance for Community Oriented Primary Care Working Group of the European Forum for Primary Care

**Moderator:** Prof. Paul Dugdale, MD, Chair of the Board, Australian Healthcare and Hospitals Association

**Learning Objectives:**
- Describe the structure of the Community Health Center and the International Federation for Community Health Centers.
- Discuss strategies for collaboration and transmural care to improve patient care and develop a solid continuum of care.
- Review an example that reduced emergency department visits using an effective continuum of care model.
- Focus on collaborative engagement with community partners to address social determinants of health.

#### Exploring the Value of Health Information Technology

**HIMSS**

**Columbus Hall (I/J), Gold Level**

- **Greg L. Wolverton,** FHIMSS, Chief Information Officer, ARcare/KentuckyCare
- **Dr. Ilan Fischler,** Medical Director, Clinical Informatics, and Geriatric Psychiatrist
- **Thomas Martin,** PhD, Director, Health Information Systems, HIMSS

**Moderator:** Rod Piechowski, Senior Director, HIMSS

**Learning Objectives:**
- Discuss the strategic role of how health information technology can be used to measure and improve hospital operational expenses, patient outcomes and physician performance.
- Identify ways that healthcare leaders can assess the overall value of information technology, including the implementation of an electronic medical record system and mobile technologies.

#### Using Global Standards to Improve Patient Safety

**GS1**

**Columbus Hall (E/F), Gold Level**

- **Feargal McGroarty,** National Haemophilia System Project Manager, St. James Hospital, Ireland
- **Sandra Michel,** Director of Systems and Quality, MMIS, Implementations and Audits, Franciscan Missionaries of Our Lady Health System
- **Dr. Jean-Michel Descoutures,** Pharmacist, Hospital Drugs Technical Coordinator, GIP Resah-IdF, France

**Moderator:** Siobhan O’Bara, Senior Vice President, Industry Engagement, GS1 US

**Learning Objectives:**
- Learn from healthcare practitioners that have implemented global standards (GS1 System Standards) to enhance patient safety.
- Understand how to leverage GS1 Standard barcodes to reduce medication errors, increase workflow efficiency and decrease the cost of care delivery.
- Describe ways that GS1 communication standards play an important role in data collection and reporting to ensure patient safety.
How Cooperation in Public Procurement can Improve Healthcare Efficiency: The Challenge of GPOs

IHF GROUP PURCHASING OFFICERS SPECIAL INTEREST GROUP

Columbus Hall (K/L), Gold Level

Gabriela Prada, Director, Health Innovation, Policy and Evaluation, the Conference Board of Canada
Jake Groenewold, Senior Vice President, Supply Chain and Business Development, Novation
Ulrike Kreysa, Vice President, Healthcare, GS1 Global Office
Mauricio Di Barbosa, CEO, Bionexo

Moderator: Charles-Edouard Escurat, Deputy Director, RESAII

Learning Objectives:
- Discuss key trends for GPOs regarding cooperation in public procurement.
- Debate a series of themes for GPOs, including international standardization and the identification of health products, structures of successful partnerships between GPOs and the industry, and the role of GPOs in detection, evaluation and spread of innovative solutions proposed by subject matter experts.

Healthcare Delivery Innovations

FREE PAPER PRESENTATIONS

Columbus Hall (A/B), Gold Level

Moderator: Thomas Vogel

Learning Objectives:
- Discuss key trends for GPOs regarding cooperation in public procurement.
- Debate a series of themes for GPOs, including international standardization and the identification of health products, structures of successful partnerships between GPOs and the industry, and the role of GPOs in detection, evaluation and spread of innovative solutions proposed by subject matter experts.

Gala Dinner

Attend the Gala Dinner in the ballroom at the Hyatt Regency Chicago for live entertainment, local culinary delights and fantastic networking opportunities. One ticket to the Gala is included with each paid registration. Additional tickets may be purchased in the Congress registration area. Business attire or your nation's national dress is recommended.

| 10:30 a.m.–12 p.m. | Concurrent Sessions             | Availability of adequate, up-to-date and reliable healthcare data is crucial to healthcare service delivery. Interoperable electronic health records, e-prescriptions and mobile health apps offer vast opportunities to enhance the safety and efficiency of care delivery. Providing people with the ability to view and add to their healthcare data empowers them to better manage their health and wellbeing. In this context, building and maintaining public trust in the safe and appropriate use of healthcare data has become critically important. During this session, participants will learn how to develop open and transparent policies around healthcare data privacy and management as well as a legal and ethical framework that support safe and secure transmission of healthcare data.  
Learning Objectives:  
- Review ethical principles, legal frameworks and practical solutions to ensure safe electronic health management data.  
- Understand ways to incorporate qualitative and quantitative data into clinical databases.  
- Explore strategies for including patients, physicians and other healthcare professionals in the development and use of Internet-based and mobile healthcare database solutions.

Hospital Visits

On Thursday from 2 p.m.–5 p.m., participate in one of four visits to Chicago’s premier hospitals. Tours cost $25 and funds will be donated to the International Committee of the Red Cross for the Health Care in Danger Project. **Bus transportation will be provided.** Please meet in the main lobby of the Hyatt Regency Chicago (Green Level, East Tower) at 1:45 p.m. Buses will depart promptly at 2 p.m. Registration is required.

---

Advocate Illinois Masonic Medical Center

Advocate Illinois Masonic Medical Center, located on Chicago’s North Side, is one of the state’s largest, most comprehensive, nonprofit, community medical centers. Illinois Masonic Medical Center offers a wide range of medical specialties and is nationally recognized for its medical expertise, use of the most innovative technologies and dedication to patient safety, quality and service.

---

Ann & Robert H. Lurie Children’s Hospital of Chicago

Ann & Robert H. Lurie Children’s Hospital of Chicago, formerly Children’s Memorial Hospital, provides superior pediatric care in a setting that offers the latest benefits and innovations in medical technology, research and family-friendly design. As the largest pediatric provider in the region with a 130-year legacy of excellence, kids and their families are at the center of all the hospital does.

---

John H. Stroger, Jr. Hospital of Cook County

John H. Stroger, Jr. Hospital of Cook County is a teaching hospital that provides primary, specialty and tertiary healthcare services. The hospital continues to maintain the strong commitment of the Cook County Health & Hospitals System to the healthcare needs of Cook County’s underserved population, while also offering a full-range of specialized medical services for all segments of the community.

---

Rush University Medical Center

Rush University Medical Center is a not-for-profit, academic medical center in Chicago. It is nationally and internationally known for many specialties of care, areas of research and its new medical hospital building, the Tower. Rush University, with an exclusive focus on the health sciences, shares the campus with Rush University Medical Center, allowing for unique integration of patient care, research and education.

Health Venture Fair

Bridging the Gap Between Innovation and Financing
Thursday, Oct. 8, 2 p.m.–8 p.m.

The Health Investment & Financing Corporation and MoneyPhysicians Inc. are pleased to invite you to the Chicago 2015 Health Venture Fair hosted by IHF, following the 39th World Hospital Congress. The Health Venture Fair will provide an opportunity for technology companies and service providers that have new and innovative approaches in the hospital sector to meet with key healthcare decision makers, leading healthcare providers, investment bankers, fund managers, broker dealers, high net-worth individuals and angle investors. The Fair will showcase new technologies that will transform the way hospital care is delivered in the 21st century.

Separate registration is required to attend the Health Venture Fair.

It is the policy of the International Hospital Federation/American Hospital Association/American College of Healthcare Executives to ensure balance, independence, objectivity and scientific rigor in all of its sponsored or jointly sponsored continuing medical education (CME) activities. To this end, all speakers participating in the 39th IHF World Hospital Congress must disclose any real or apparent conflict(s) of interest that may have a bearing on the activity. A conflict of interest may exist when individuals have both a financial relationship with a commercial interest and the opportunity to affect the content and delivery of the activity. This pertains to pharmaceutical companies, medical device manufacturers and any other organization whose products or services relate to the presentation.

The intention of this policy is to identify potential conflicts of interest, facilitate resolution according to protocols and ensure that disclosure is provided to participants prior to the beginning of the activity so that learners may formulate their own judgments as to the objectivity of the activity. A comprehensive conflict of interest disclosure form for all speakers is available on-site at Congress registration.

The following speakers have disclosed that they or an immediate family member have a financial interest with a commercial organization. Where applicable, their names, the commercial entity and the nature of that relationship are indicated.

**Speaker Disclosures**  List accurate as of September 9, 2015

Andrew Garman
Health Administration Press, Author, Royalty—not relevant to presentation content; University of Colorado, Instructor, Honorarium—not relevant to presentation content; NCHL/USCIPP, Staff, Salary—yes, relevant to presentation content
