Tons Of Hope:
The Philippines, A Case Study
Tons of Hope

Tons of Hope is a campaign seeking support for projects around the world.

The Goal: improve the environmental, financial, and human conditions in low-resourced health centers around the world, to bolster health system capacity.
Why we must act

- Many rural health clinics around the world are: energy poor & energy unreliable; using diesel fuel as a power source, which is both expensive and ecologically damaging; lacking clean drinking water.
The Philippines Project

• The Sextant Foundation partnered with Project HOPE to provide the technical expertise necessary to bring clean water and solar energy to several community clinics in the Camotes Islands.
Typhoon Haiyan

Known in the Philippines as Typhoon Yolanda, one of the strongest tropical cyclones ever recorded, devastating portions of Southeast Asia, particularly the Philippines.

- **Total fatalities:** 6,340
- **Date:** November 2, 2013 – November 11, 2013
- **Category:** Category 5 Super Typhoon
- **Affected areas:** Philippines, Micronesia, Vietnam
Camotes Islands
Moabog Barangay Health Station
Moabog Water Capture
Cawit Barangay Health Station
Calamante Bangaray Health Station

Walter Vernon
PE, LEED AP, EDAC

Walt’s passion is to find better ways to blend the local reality with the very best practices and innovation from around the world. Since the January 2010 earthquake that devastated Haiti’s healthcare infrastructure, he has traveled to various resource-constrained countries to help rebuild their healthcare facilities and infrastructure. This work has extended to other regions—including the peer review of a children’s hospital in South Africa, collaborating with Healthcare Without Harm to review India’s healthcare infrastructure, and the design of a pediatric hospital in Liberia.
Disclosure of Relevant Financial Relationships
By Faculty and Planners of Continuing Education Activities

It is the policy of the IHF/AHA/ACHE to ensure balance, independence, objectivity and scientific rigor in all of its directly sponsored or jointly sponsored Continuing Education (CE) activities. The intention of this policy is to identify potential conflicts of interest, facilitate resolution according to protocols, and ensure that disclosure is provided to participants prior to the beginning of the activity so that learners may formulate their own judgments as to the objectivity of the activity.

All individuals in a position to influence and/or control the content of IHF/AHA/ACHE directly and jointly sponsored CE activities must disclose to IHF/AHA/ACHE and subsequently to learners that the individual either has no relevant financial relationships or any financial relationships with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in the CE activities.

Conflicts of Interest: Circumstances create a conflict of interest when an individual has received financial benefits in any amount from a commercial interest within the past 12 months and that individual is in a position to affect the content of CE regarding products or services of commercial interest.

Commercial Interest: A commercial interest is considered any entity producing, marketing, re-selling, or distributing goods or services.

Financial Relationships: A financial interest is established by payments for various activities to the individual, the individual's spouse or partner by proprietary companies related to the content of a CE program. Examples of payments that constitute financial interests include grants or research support, employment, consultation, speaking or teaching activities, or royalties for companies. Financial interest also includes owning stock or options in any amount in these types of companies.

Do you intend to discuss an unapproved/investigative use of a commercial product/device? □ Yes □ No

If yes, please disclosure such references to the learner in the educational activity.

I have read and will adhere to the IHF/AHA/ACHE Policy on Conflict of Interest Disclosure. I will uphold IHF/AHA/ACHE standards to insure that balance, independence, objectivity and scientific rigor are maintained in the planning and presentation of this CE activity.
