

THE STORY OF HOW **8,000** VOLUNTEERS HAVE TOUCHED OVER **800,000** LIVES.

Aster Volunteers

Aster Volunteers vision is to give individuals from all walks of life an opportunity to come together and lend a hand to those in need. With a focus on childcare, our volunteers work towards making healthcare accessible and empowering the underprivileged.

Aster DM Healthcare

We started our journey 3 decades ago in UAE; a journey with an aim to provide quality healthcare that is affordable. We strongly believe that profit should be a byproduct of excellence and not the aim of healthcare. We also provide support to those who are in need through our Foundations and CSR activities.
