WE ENSURE THAT WE DELIVER OUR HEALTH SERVICES IN COMPLIANCE WITH THE SIX (6) NORMATIVE ELEMENTS OF THE RIGHT TO HEALTH SPECIFICALLY IN THE DESIGN OF OUR CSR PROGRAMS FOR OUR FINANCIALLY-CHALLENGED PATIENTS.

CSR is the 5th perspective of our Balanced Scorecard.

CSR is part of governance.

CSR is part of our corporate culture.

MDH is an active member of The United Nations Global Compact since 2014.

The MDH CSR Circle of Partners allows us to deliver quality healthcare to hard-to-reach areas where we most likely will not be able to do so. Through our partnership, we are able to extend our health services to people who need it most.

Our partnership also includes provision of health access cards through the one-day blue card processing for financially-challenged communities. This way, patients can easily access our health services in our outpatient clinic.

The Circle also provides services which complements the programs of MDH CSR (i.e. Temporary shelter for abandoned patients, transportation/airfare for patients coming from the provinces, legal services for victims of abuse, etc).

MDH CSR multiplies its reach to the different communities in providing holistic intervention for patients through our Circle of Partners.

TOGETHER WE ARE able TO TRANSFORM AND DO MORE. TOGETHER WE CREATE AN IMPACT.

Our patients are able to give priority for their own health. We are able to provide QUALITY AND INCLUSIVE HEALTHCARE and CHANGE LIVES in the process.
