

Hospital Executive Study Tour

June 10 – 14, 2018

Jerusalem – Haifa – Tel Aviv

Health Investment & Financing

ISRAEL 2018 HOSPITAL EXECUTIVE STUDY TOUR

The Study Tour 2018 is an opportunity for healthcare professionals to discover the Israeli healthcare systems and to visit technological sites in innovative companies in the healthcare sector.

During the Tour, attendees will get to know more about

- The history of universal healthcare in Israel
- The health and hospital policy in Israel
- Clinical research, technology transfer and commercialization
- Medical technology innovation
- Programs for Palestinians and other special population groups

The organizer and the facilitator collaborate with regional members and partner organizations in hosting various events that pave the way for effective advocacy and strategies that will result in implementation and exchange of ideas on best practices in leadership and management in health service delivery by hospitals and healthcare facilities.

These exchanges of knowledge between local executives from the healthcare sectors and healthcare professionals from all around the world encourage the share of best practices in healthcare service delivery and innovation.

For a more detailed program on the Study Tour, go on the [IHF website](#) or [click here](#).

Registration is now open
